★ Overall

I have over 8 years of experience as a Front-End Web Developer, specializing in creating responsive and user-friendly web applications. Throughout my career, I have worked on a variety of web projects, including corporate websites, real estate platforms, web services, and mobile applications.

Notable Projects

- **Corporate Websites:** Empire Building, Athenee Tower
- **Real Estate:** Ananda, Noble, SC Asset, Sansiri Online Booking
- **Web Services:** LightRemit
- **Mobile Applications:** S-Mom Club

Interests & Career Goals

I am highly interested in Front-End Development, app development, and Full-Stack Development. I am always eager to explore new technologies and contribute to impactful projects.

My goal is to become a well-rounded developer with expertise in both front-end and back-end technologies. Additionally, if given the opportunity, I would love to develop mobile applications to create innovative technologies for clients to enjoy and benefit from.
